Psychiatric Pharmacology Update

Friday, October 26, 2018 8:00 am – 12:15 pm (4-hours)

(7:30 am – 8:00 am Registration Check-in & Continental Breakfast)

**This program is funded in part by the
William B. and Sylvia A. Hunsberger Fund**

This 4-hour psychopharmacology update will provide comprehensive information on the psychopharmacological treatment of psychiatric disorders most commonly encountered in clinical practice. Discussion will include complex and challenging conditions as well as medication-assisted treatment of alcohol and substance use disorder. The latest advances in the treatment will be presented with emphasis on the importance of working within a framework that integrates biological and psychotherapy treatment.

At the conclusion of the seminar, attendees should be able to:

- List major diagnosis of psychiatric disorders
- Describe the essential components of a psychiatric assessment
- Identify various types of psychiatric medications
- Summarize the management of depression and anxiety disorder
- Explain the importance of integrating psychopharmacology and psychotherapy into patient care
- Apply current evidence-based clinical treatment options for various psychiatric disorders
