Friday, October 18, 2019 8:30 am – 11:45 am (3-hours)

*This program is funded in part by the William B. and Sylvia A. Hunsberger Fund*

Individuals with Borderline Personality Disorder (BPD) are some of the most difficult clients to manage and treat. This seminar will provide an in-depth review of the diagnostic criteria for BPD, assessment tools and treatment protocols. Prevalence, treatment challenges and the probability of recovery will be examined. Assessment tools to be covered include the clinical interview, self-report instruments, self-harm inventories and other methods. The latest research on the treatment of BPD will be discussed as well as the use of pharmaceuticals and cognitive & dialectical behavior therapy.

### At the conclusion, attendees should be able to:
